Musical Minds Weekly Routine Songs

It's Time For Music | Let's Make a circle | Wake up Puppet | Shake and Stop | Goodbye Song and we always share in an acknowledgement of country.

Our weekly routine songs are designed to support children's musical development by introducing and reinforcing the Elements of Music, including beat, structure, pitch, tempo, rhythm, dynamics, timbre, and expression.

These songs form the foundation of each child's musical learning. They are carefully composed and taught to promote understanding, recall, and the development of early music skills through active participation.

Each week, the songs are revisited with intentional and creative variations. This approach supports memory retention, deepens conceptual understanding, and allows children to progressively build musical knowledge in a developmentally appropriate way.

As children transition toward learning an individual instrument in Primary School, they will have established a strong and transferable understanding of how music works, providing a solid foundation for future musical learning.
